RG104 E-1 Box 138 Feb-Apr 1886

Treasury Department,

BUREAU OF THE MINT,

Washington, D. C., March 17, 1886.

Sir:

Capt. McNally, of the Ordnance Department of the Army, advises me that no improved arms are supplied by the Ordnance Department. With reference to your service his opinion is that the carbines which you now have are much better than magazine rifles.

The result of this conversation is to impress me with belief that the best thing to do is to put in a requisition for what you want in the way of ammunition and make a request

RG104 E-1 Box 138 Feb-Apr 1886

for two Gatling guns mounted on tripods, for which the same ammunition will answer.

Very respectfully,

James P. Kimball

Director of the Mint

Hon. Daniel M. Fox,

Superintendent Mint,

Philadelphia.
